

VentCore

3-in-1 Device for
Emergency Medical Care

VentCore introduces a new generation of mobile live-saving equipment. Our 3-In-1 Device is designed to support paramedics and doctors in all situations. With reduced weight and smarter behaviour, VentCore helps you saving lives.

Customizable Screen

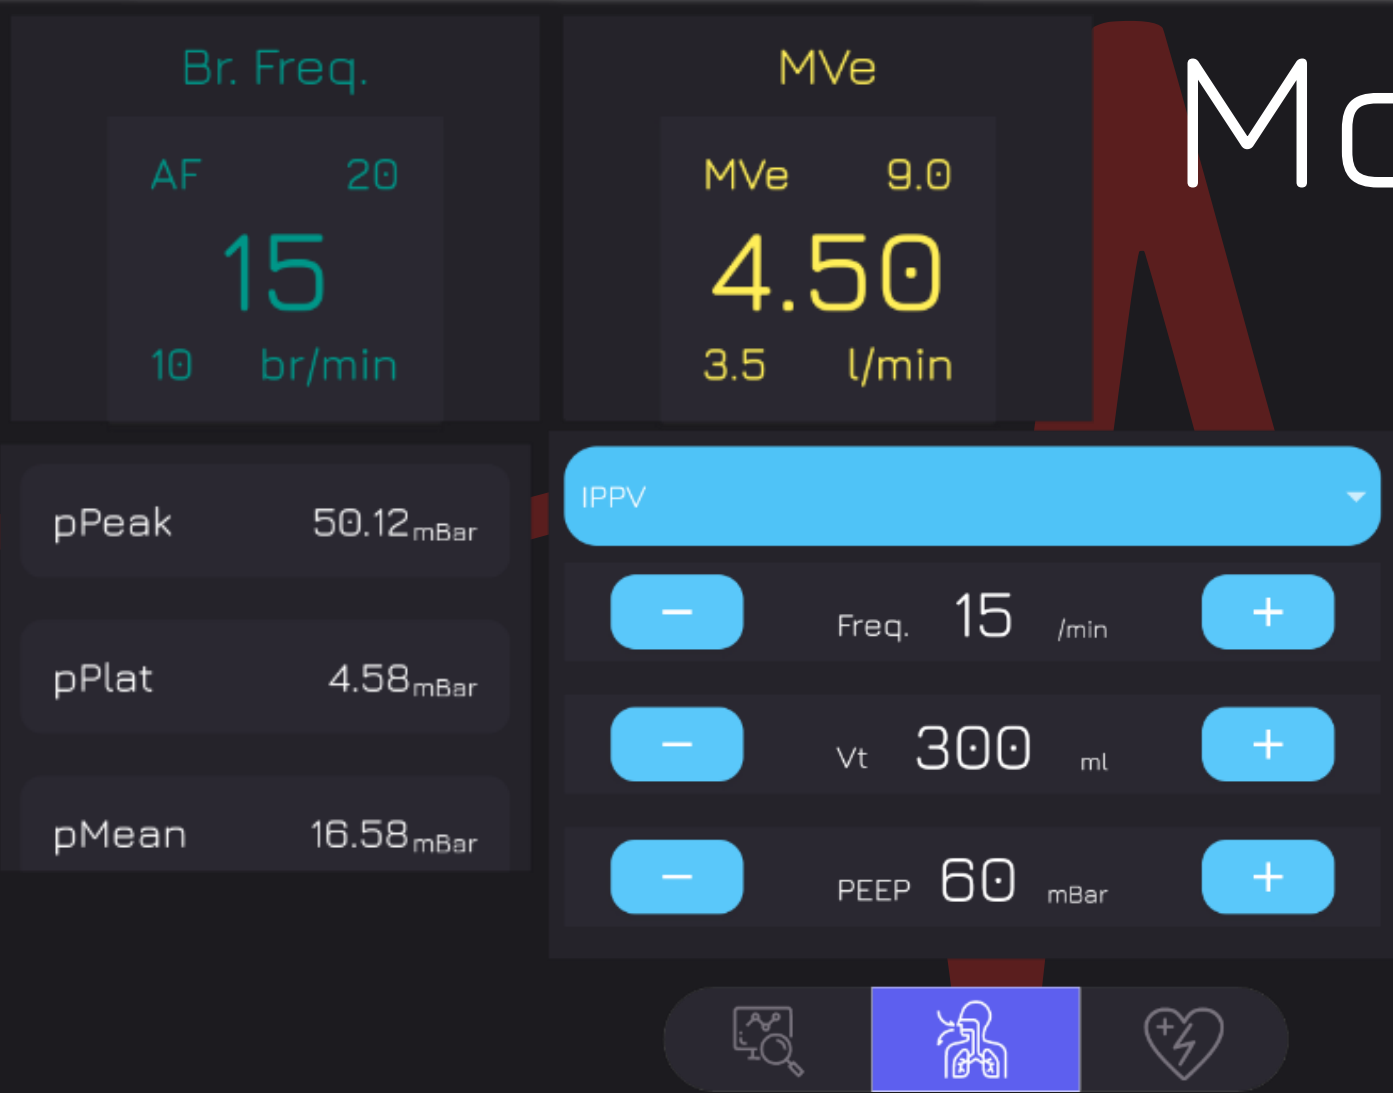

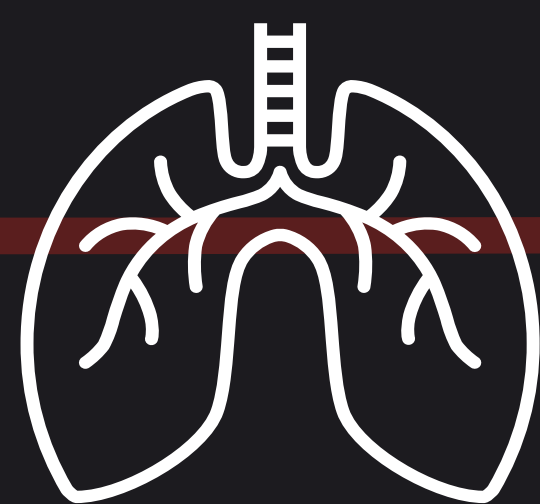

Show only the graphs you need. Display curves, medians and graph history by interacting with the touch display.

Monitoring, Ventilation and Defibrillation combined

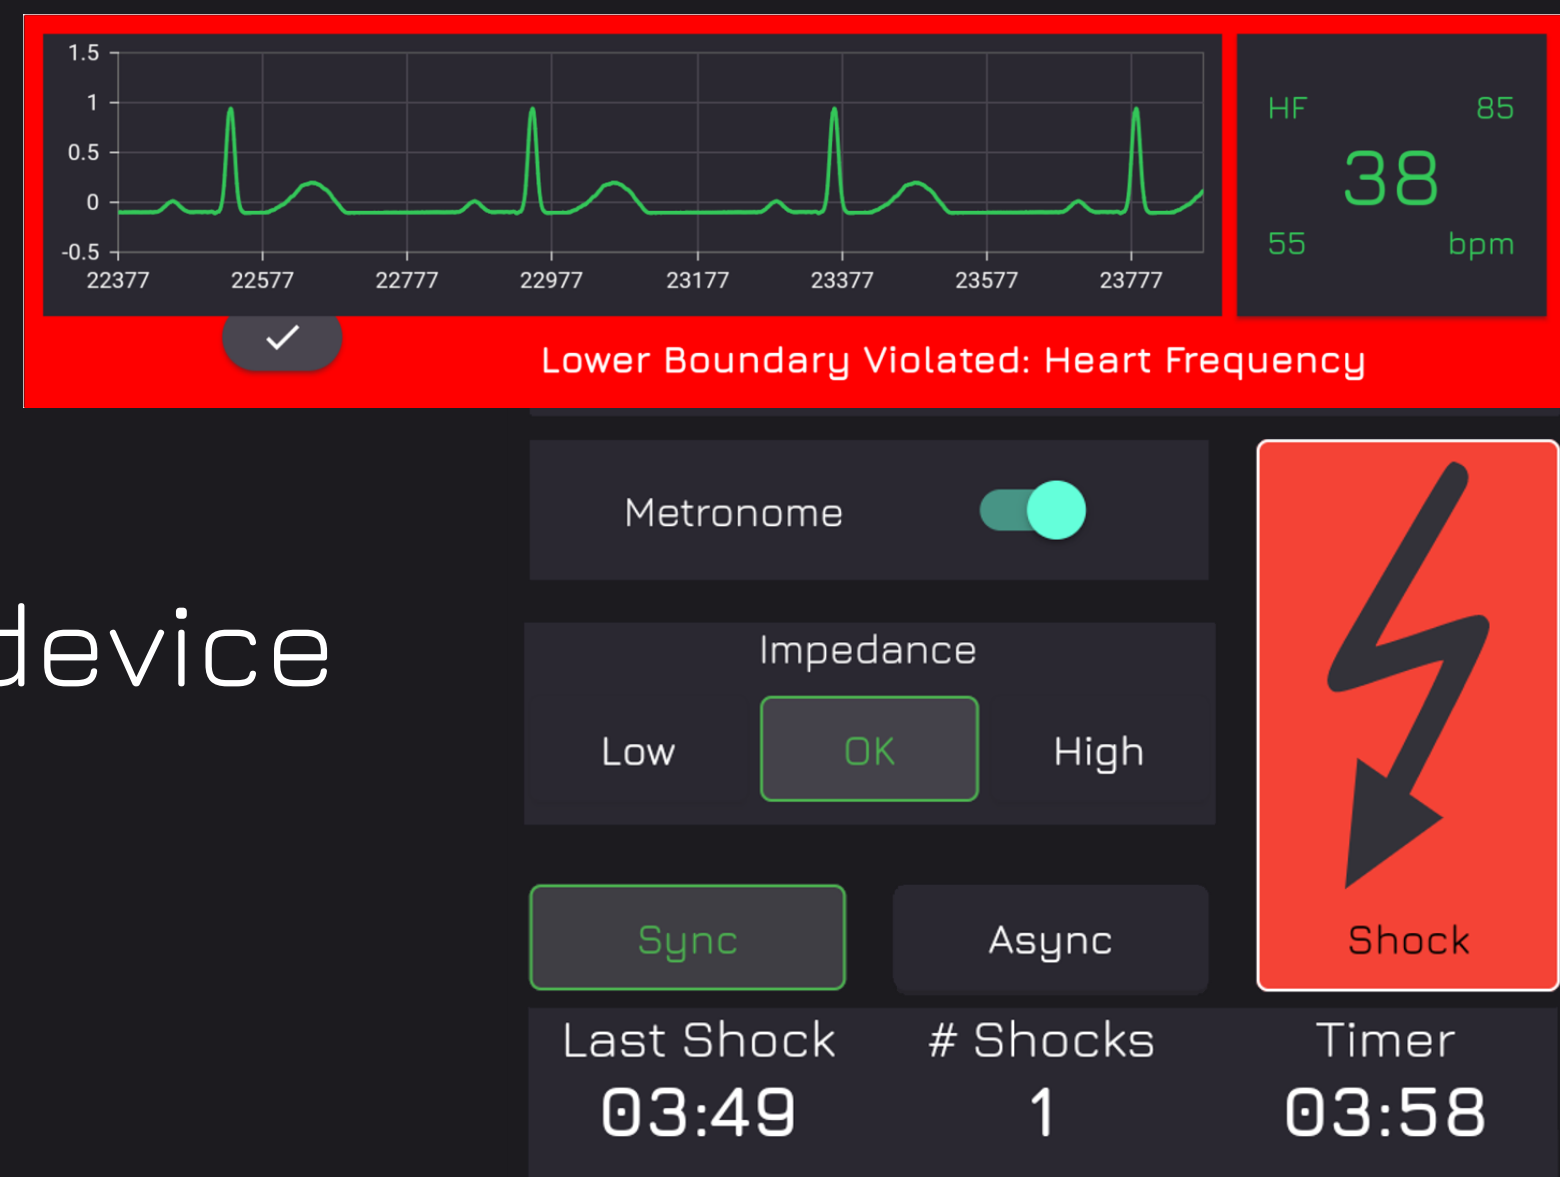

Interact with only one screen which provides all the functionality needed and benefit from the possibilities.

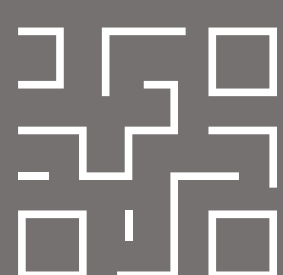

Smart Behaviour

Explore the new smart adjustment behaviour for repetitive alarms and concentrate on reanimation while the device prevents sensory overload.
